SUMMARY

I am a detail-oriented Front End Developer with two years of pure coding experience working with HTML, CSS JavaScript, Bootstrap and React. Highly adept at both independent and collaborative projects, with an emphasis on landing page and website development

SKILLS

Programming Languages: HTML | CSS | JavaScript | Bootstrap | React.js

PROJECTS

TO DO LIST	Leads Tracker	Calculator
This is a To-Do List project that I've developed using vanilla JavaScript. I typically used HMTL, CSS, and JavaScript. In this app you can in detail tailor your days plans, check mark them when your through with them and also delete them after completion.	A tracker that helps users to track their web-pages and save their tabs in local storage for further use. Building this app I learned how to store data through page refresh and it was first time I deployed an app to Google chrome extensions.	A JavaScript Calculator that taught me how to manipulate the DOM and render my elements to our browser.

EDUCATION

University of Johannesburg: Diploma in Marketing Management | 2017-2021

High School: Shakoleng Sec School
